

PRT Cleaner

EXTREME PERFORMANCE ALKALIZING NEUTRALIZER

DESCRIPTION

VPI PRT CLEANER is an integral component in the overall VPI PRT System. It is chemically formulated specifically to clean and enhance floors treated with our PRT Flex Shield, or PRT Satin Flex Shield. PRT Cleaner is the result of ground breaking research using the latest in biodegradable detergent compression technology.

PRT Cleaner's dynamic properties have the unique ability to clean, condition, and neutralize alkalizing soils and residues while leaving floors clean and residue free. PRT Cleaner is designed to maximize the properties and appearance of PRT Earthtones tile that have been treated with PRT Flex Shield, or PRT Satin Flex Shield. In addition to being the leading commercial floor cleaner on the market today, PRT Cleaner is also extremely economical to use.

PRT Cleaner is gentle enough to be used to wash any water washable surface. It can eliminate the use of several products and can be used in the hardest of water conditions. Even in the hardest water, PRT Cleaner will suspend soil loads you wouldn't believe to keep them from re-depositing so your floors maintain their beautiful appearance! It's also a fantastic odor counteractant. You'll love it!

USES / BENEFITS

- **Extremely economical to use**
- **100% Active**
- **Highly Concentrated**
- **Biodegradable**
- **Environmentally Safe**
- **Odor Counteractant**
- **Pleasant Fragrance**
- **Can be used for mopping, or in auto scrubbers.**
- **Cleans and protects PRT**
- **Leaves no residue**
- **Removes alkaline films**

SPECIFICATIONS

Fragrance	Unique
Color	Blue
Foaming	Moderate to High
Flash Point	None
Detergency	Excellent
pH	9.5 - 10
USDA Rating	A-4
Wetting	Excellent
Biodegradable	Yes

PRECAUTIONS

KEEP OUT OF REACH OF CHILDREN.
See container and MSDS for further safety instructions.

DIRECTIONS FOR USE

PRT CLEANER concentrate should always be diluted with water as follows:

Light Soils: 1/4 to 1/2 oz. per gallon of water for damp mopping and general light soil removal.

Normal Soils: 1 oz. per gallon of water will remove and suspend soils and stubborn dirt.

Heavy Soils: 6 oz. to 16 oz. per gallon of water will emulsify and remove heavy soils from most surfaces.

The abilities of this **EXTREME PERFORMANCE, ALKALIZING NEUTRALIZER CONCENTRATE** will simply amaze you!

FOR PERIODIC MAINTENANCE: Use PRT Cleaner with an automatic scrubber (or manual machine) and RED PAD, using properly diluted PRT Cleaner. Burnish Flex Shield if desired to increase gloss using a WHITE PAD. DO NOT BUFF/BURNISH Satin Flex Shield.

Floor can be recoated with PRT Flex Shield, or PRT Satin Flex Shield to rejuvenate it as necessary. Damp mop or automatic scrub using PRT Cleaner and a red pad. Rinse with clear water. After assuring that the floor is dry, clean, and free of residue; apply 1-2 coats of PRT Flex Shield or PRT Satin Flex Shield allowing ample dry time.

PRT Earthtones, simply the most durable & beautiful commercial floor on the market today.....
